ADJUSTABLE FEET	Come as standard on bases. It is important that the wardrobe carcass be levelled (by adjusting the adjustable feet) before the doors are attached	

ASSEMBLY NOTES

For wardrobe assembly, you will need extra space:
60mm in width and 50mm in height.

SOFT-CLOSE DEVICES

Wardrobes come as standard with a soft opening and closing system for each door.

PRE-DRILLED HOLES ON INSIDE OF SIDES AND PARTITIONS

All wardrobes are drilled with vertical holes at 160mm intervals. Pre-drilled holes can be omitted if requested.

WARDROBE HEIGHT

To get the finished height of the wardrobe, add 20mm to allow for the space taken up by the outer door's runner.

EXAMPLES OF WARDROBE COMPOSITIONS

HINGED DOOR CORNER AND SLIDING DOOR WARDROBES

When setting a sliding door wardrobe beside a corner wardrobe, you must use two side panels and make sure that the inner door on the sliding door wardrobe is on the corner wardrobe side.

SLIDING AND HINGED/FOLDING DOOR WARDROBES

A hinged or folding door unit can be set against the side of the module with the inner door using just a partition, while two side panels must be used on the side with the outer door.
